PROFILE

Full Stack Developer with around 3 years of experience building scalable web applications using React.js, Next.js, Node.js, and Golang. Experienced in designing responsive user interfaces, developing REST and GraphQL APIs, integrating AI-powered features, and building end-to-end applications. Strong understanding of modern frontend frameworks, backend architecture, databases, cloud technologies, and real-time systems.

EXPERIENCE

- Mobiloitte Technologies, Software Engineer09/2023 – Present | New Delhi
- Built backend microservices using Golang and Node.js for high-throughput applications across multiple business domains
 - Developed and optimized REST and GraphQL APIs, improving response times through Redis caching, query optimization, and efficient backend architecture
 - Architected and managed data layers using PostgreSQL, MongoDB, and Redis for scalable and low-latency operations
 - Implemented secure payment workflows using Stripe and Razorpay with retry handling, idempotency mechanisms, and reconciliation processes
 - Built AI-powered backend features using OpenAI and Langchain for semantic search, intelligent automation, and context-aware workflows
 - Developed real-time backend functionalities using WebSockets and Redis Pub/Sub for concurrent communication systems
 - Followed modular backend architecture patterns (controller → service → repository) to improve maintainability and scalability of applications
 - Collaborated with frontend, AI, and product teams to deliver scalable production solutions aligned with business requirements
 - Contributed to backend performance optimization, debugging, code reviews, and mentoring junior developers on best practices

SKILLS

Backend & Systems: Golang, Node.js, Express.js, Gin, REST APIs, GraphQL, Microservices Architecture

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Redux Toolkit

Databases & Caching: PostgreSQL, MongoDB, MySQL, Redis (Caching, Pub/Sub), OpenSearch

AI / LLM: OpenAI, Semantic Search, Prompt Engineering

Realtime Systems: WebSockets, Socket.io, Event-Driven Architecture

Cloud & DevOps: AWS, Azure, Docker, CI/CD Pipelines, Git

PROJECTS

- Lands & Homes — AI-Powered Real Estate Platform 🔗
- Built multilingual backend microservices using Golang and Python for property search and management workflows
 - Developed AI-powered property search pipelines using OpenAI, hybrid search, embeddings, and semantic ranking across OpenSearch, Neo4j, and Pinecone
 - Designed multi-stage query processing workflows with Redis/PostgreSQL fast-path lookups, LLM-based query extraction, and weighted result scoring for improved search relevance
 - Designed REST and GraphQL APIs using PostgreSQL and Redis for scalable low-latency operations
 - Integrated Redis caching and optimized database queries to improve API performance and reduce database load
- DekhBhal App — AIIMS Jodhpur 🔗
- Developed backend systems using Node.js and PostgreSQL for caregiver and ASHA worker workflows
 - Implemented real-time chat and notification systems using WebSockets (Socket.io)
 - Designed role-based access control and backend validation for secure healthcare data management
 - Built dynamic questionnaire and admin modules for structured operational workflows
- BoostAI — Business Platform 🔗
- Developed backend APIs using Node.js, Express.js, and PostgreSQL for assessments, learning modules, and business workflows
 - Built automated real-time chat systems using WebSockets for advisor communication workflows
 - Implemented OpenAI Assistants and curated investor datasets for AI-powered investor discovery workflows
 - Integrated Zoom and Google Calendar APIs for real-time meetings and advisor scheduling workflows

KEY ACHIEVEMENTS

- Reduced API response times by ~60% through database optimization, Redis caching, and backend performance improvements
- Built and deployed AI-powered backend systems using OpenAI and LangChain for semantic search and automation workflows

EDUCATION

ABES Institute of Technology, B. Tech - ECE
Affiliated to Dr. APJ Abdul Kalam Technical University

08/2019 – 07/2023 | Ghaziabad, India
8.5 CGPA
